2014 – 2018

Asuka Japanese Language School, Japan

LEADERSHIP & WORKING STYLE

- Research- and evidence-driven: break an unfamiliar genre or system down through benchmarks and live data before proposing a design.
- Lead by example and take accountability for team outcomes, not just my own tasks.
- Turn analysis into specs other people can build from, and communicate them across disciplines — design, engineering, art, and business — in three languages.
- Empower and mentor: give designers the tools and room to make decisions and grow.
- Stay calm and adaptable under pressure, shifting requirements, and live-ops deadlines.

CAREER OBJECTIVE

Aiming to grow into a Game Producer: deepening my game design craft in a professional, multicultural environment and shipping titles for global markets.

Long-term goal: to lead a game the world proudly knows as made in Vietnam — and led by a woman.
